Dear Parents/Carers,

Advice for your Year 8 Child to Self-Isolate

We were advised this morning that there has been a confirmed case of COVID-19 within the Year 8 bubble.

As a result of this positive case, we have worked with Public Health England (PHE) and the Department for Education and have identified that your child **has been in close contact** with the affected case.

The student who has tested positive was last in school on Friday 4th December which is the reason **Public Health England has directed Year 8 students to isolate up until and including Friday 18th December.**

Your child must not go to school or any public areas: **your child must remain at home.**

Even if your child has a COVID-19 test which returns a negative result in the intervening period, YOUR CHILD MUST REMAIN AT HOME SELF ISOLATING UNTIL 18th DECEMBER due to the incubation period of the virus.

Further details of what your child needs to do are in NHS Guidance:

<https://www.nhs.uk/conditions/coronavirus-covid-19/testing-for-coronavirus/nhs-test-and-trace-if-youve-been-incontact-with-a-person-who-has-coronavirus/>

We are asking your child to do this to reduce the further spread of COVID 19 to others in the community. If you need support with isolation, please contact your local Council.

Other members of your household, other than your Year 8 child, can continue normal activities provided your child does not develop symptoms within the self-isolation period.

Any other member of your household who is self-isolating must, of course, continue with their period of self-isolation.

If your child is well at the end of the period of self-isolation, then they can return to usual activities.

What to do if your child develops symptoms of COVID 19

- If your child develops symptoms of COVID-19, they must not come to school and should remain at home for at least 10 days from the date when their symptoms appeared. Anyone with symptoms will be eligible for testing and this can be arranged via <https://www.nhs.uk/ask-for-a-coronavirustest-or-by-calling-119>.

- If your child develops symptoms of COVID-19, please inform the school immediately.
- If your child develops symptoms of COVID-19, all other household members who remain well, must stay at home, and not leave the house for 14 days. This includes anyone in your 'Support Bubble' - The 14-day period starts from the day when the first person in the house became ill.
- If your child develops symptoms of COVID-19, household members should not go to work, school or public areas and exercise should be taken within the home.
- If you require help with buying groceries, other shopping or picking up medication, or walking a dog, you should ask friends or family. Alternatively, you can order your shopping online and medication by phone or online.
- Household members staying at home for 14 days will greatly reduce the overall amount of infection the household could pass on to others in the community.
- If you are able, move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period.
- Further information is available at: <https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stayat-home-guidance-for-households-with-possible-coronavirus-covid-19infection>

Symptoms

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- a new continuous cough
- a high temperature
- a loss of, or change in, your normal sense of taste or smell (anosmia)

For most people, coronavirus (COVID-19) will be a mild illness.

If your child does develop symptoms, you can seek advice from the nhs.uk website at <https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/> .

If you are concerned about your child's symptoms, or they are worsening you can seek advice from NHS 111 at <https://111.nhs.uk/> or by phoning 111.

How to stop COVID-19 spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID19:

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

Further information is available at <https://www.nhs.uk/conditions/coronavirus-covid-19/>

In term of your child's learning

During your child's period of isolation, your child's teachers will be delivering live online lessons using Microsoft Teams as per your child's normal timetable, as such they will be expected to access all their virtual classes for each day that they are in isolation, thus they will have 6 virtual lessons a day – these Microsoft Teams lessons can be accessed via a computer, tablet or phone.

In addition, your child will also be expected to access their morning and afternoon mentor times each day at 0845 and 1500 via Microsoft Teams. Registers will be taken for mentor times and every lesson just as they would be if your child were physically in school.

I am sure you will agree it is vital that your child's learning is not compromised by this period of isolation and I am sure you will support your child and the school in ensuring that they access all their online mentor times and lessons whilst they are in isolation.

Please note that I will be writing an additional letter to all our parents of Year 7 to Year 13 students later on today (Friday 11th December) where I will discuss the end of term arrangements.

Yours sincerely,

Jon Boyes
Principal
